Visit "[Friend](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Im not addicted anymore  
I feel so good I want some more  
Ive given in, and now I'll take it again  
So come with me my friend

Well come with me my friends x3  
Well come with me

Im not so deep that I can feel so sweet  
And dont tell me that Im your faithless creep  
Im fucking up with the system again  
And come with me my friends

Yeah come with me my friends  
Well come with me my friendsx2  
Well come with me

And the face paint and matches no need to be there  
And since theres no difference theres no need to  
compare  
And you see me, I, Im flying  
And you see me there, Im dying

Come with me my friendsx3  
Come with me
