Pressure Man
Take the hammer
Smash the glass
Take the glass
Cut the mother earth
Opens up
And sucks you down
It sucks your sorry ass into the ground

Are you pressure man or prey
Do you suffer through the gravity
Are you predator or prey
Will you suffer my reality
Are you pressure man or prey
Do you suffer through the gravity
Are you pressure man or prey
Well go and get me another
Make my day
And will flower crosses wash it all away
And follow the lines and the arrows
To find your way
And will sweeping bands all take you pain away

Sometimes when you come for me
I will run away
