

Feelers, The "Sex Show"

Im burying my feet into the ground
Im leaving no more secrets around
and you take everything I say to heart
but I cant tell, and I have got to take these steps so far
but I cant move, these laserlines

its best you dont see me anymore
cause I keep seeing you around
beauty in the vicious works are hard
but I cant care
and I will probably hurt you but I dont mind
cause you dont feel

connect these laserlines and make this cyber sex show
we're in
connect these laserlines and make this cyber sex show
we'er in
connect these laserlines and make this cyber sex show
we're in
connect these laserlines and make this cyber sex show
we're in

bring back to earth
it'll be worth it in the end, if I could reach
you're so far
connect these laserlines and make this cyber sex show
we're in
connect these laserlines and make this cyber sex show
we're in

its a sex show honey, its a sex show honey..... (repeat to
fade)
