

## Feelers, The "Supernova"

Visit "[Supernova](#)" on MotoLyrics.com

When the favours come around  
I wanna be the first to receive them now  
When the shadows become the light  
I wanna be the first to see them now

And we're moving a little closer now  
And our love is like a shadow on the knife  
And we're moving so much closer now  
And our love is like a supernova  
Our love is like a supernova

When the laughter turns to tears  
I wanna be the first to taste it now  
When I lose myself in the crowd  
I want you to be the one to find me now

And we're moving a little closer now  
And our love is like a shadow on the knife  
And we're moving so much closer now  
And our love is like a supernova  
Our love is like a supernova

Yeah we're moving a little closer now  
And our love is like a shadow on the knife  
And we're moving so much closer now  
And our love is like a supernova  
Our love is like a supernova
