See the sun [?x]

We are one
And we feel peace and love in our hearts
It's begun
We prepare for the night that will come

We are here
See the sun going down, it's begun
We are one
And we feel peace and love in our hearts

We are here
And we wait
For the sun to come down

Feel the glow
When the sun fades away very slow
See the sun [2x]

See the sun [?x]

We are one (we are one [?x])

See the sun [?x]

We are one
And we feel peace and love in our hearts
It's begun
We prepare for the night that will come
