if you could take me with you  
would you be delicate with me?  
this is my first time communion  
i cannot breathe or speak or see  
i'm out of my mind  
i'm out of my mind  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
there's no words to communicate to you  
there are no words for what you are  
no way i'll ever quite explain  
they are too fearful for reason  
only the veil that is to blame  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
no, my mind, yeah, communicate to you  
i'm out of my mind  
i'm out of my mind  
if i could stay here forever  
no-one would ever have to know  
you came to take me away  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
there's no words to communicate to you  
i'm out of my mind  
now my mind can't communicate to you  
i'm out of my mind  
i'm out of my mind  
i'm out of my mind  
i'm out of my mind
