i'm no good
do you want me to be?
i'm not new
i have never been clean
i need you to purify my endless sin
wash away the poison
buried in this skin

i learned the hard way
i couldn't do it my way

you're no good
you're not new,
you have never been
i need you, oh yeah
i need you to fix this mess i'm in

no control
keep repeating the lie
one more time
i could never deny
it seems as if these limbs belong to someone else
if i could only keep this all inside myself

this'll be the last time
it's what i said the last time

you're no good
you're not new,
you have never been
i need you, oh yeah
i need you to fix this
you're no good
you're not new,
you have never been
i need you, oh yeah
i need you to fix this mess i'm in

my heart, it beats so hard
it beats so hard
it beats for you

my heart, it beats so hard
it beats so hard
it beats for you

my heart, it beats so hard
it beats so hard
it beats for you

my heart, it beats so hard
it beats so hard
it beats so hard

you're no good
you're not new,
you have never been
i need you, oh yeah
i need you to fix this
you're no good
you're not new,
you have never been
i need you, oh yeah
i need you to fix this mess i'm in
