i could bleed
does it make me the same as her?
i could show you things
but i feel that you have
seen it all before
and i breathe
does it make me the same as her?
and i feel and i know
i feel exactly the same as her

it can't be
exactly
i am not
tears falling over you
how did you get so old?
how did you get so old?

it can't be
exactly
i am not
tears falling over you
how did you get so old?
how did you get so old?

i can see
that it makes me the same as her
if i shake for you
does it make you feel
the way she made you feel

and i breathe
does it make me the same as her?
and i feel and i know
i feel exactly the same as her

it can't be
exactly
i am not
tears falling over you
how did you get so old?
how did you get so old?

it can't be
exactly
i am not
tears falling over you
how did you get so old?
how did you get so old?

and to think i was the one
that you pushed aside
i could breathe but i fear that i'd
leave it far behind
i'm over
falling over

i could bleed
does it make me the same as her?
i could show you things
but i feel that you
have seen it all before

and i breathe
does it make me the same as her?
and i feel and i know
i feel exactly the same as her

it can't be
exactly
i am not
tears falling over you
how did you get so old?
how did you get so old?

it can't be
exactly
i am not
tears falling over you
how did you get so old?
how did you get so old?
