Yesterday or the day before
Definitely yes, yes the day before
On both of those it occurred to me
That I might already be dead

Dead and yet I'm awake it seems
I'm awake and stuck in extended dreams
Like life, like light, like days, like night
That I spend holding nothing but still

And I might be dead but I could be wrong
And I might be dead but I could just be wrong

Wake me please, so I can see
It's only a dream, only another dream
Wake me please, so I can see
It's only a dream, only another dream away

Yesterday or the day before
Definitely yes, yes the day before
On both of those it occurred to me
That I might already be dead

There's a worn spot here
On my sneaker toe from kicking your
From kicking your door
And I still can't get an answer from that

And I might be dead but I could be wrong
And I might be dead but I could just be wrong

Wake me please, so I can see
It's only a dream, only another dream
Wake me please, so I can see
It's only a dream, only another dream away

Wake me please, so I can see
It's only a dream, only another dream
Wake me please, so I can see
It's only a dream, only another dream away, away,
away

And I might be dead but I could be wrong
And I might be dead but I could just be wrong

Wake me please, so I can see
It's only a dream, only another dream
Wake me please, so I can see
It's only a dream, only another dream away
only a dream, only another dream away
Only a dream, only another dream away
