it was a dark day
for all you within tune
i took a fast train
and i watched my bridges burn
you were on the other side
i got a white flag
and i need to wave it

surrender, surrender
surrender, baby, please
surrender, surrender
surrender, baby, please
don't let me
baby, please
don't let me
surrender

i picked a fine time
to open up my eyes
i found a demon
a demon in disguise
with a pocket full of fire
stop before i have to

surrender, surrender
surrender, baby, please
surrender, surrender
surrender, baby, please
don't let me, don't let me
don't let me leave
surrender, surrender

i watched my bridges burn
