i've done some very bad things
i have no excuses
i wasn't listening
i've got some bruises

lips honey swollen
to sink your battles
roses hips are rolling
rolling hard toward reality

tonight is like wartime
you got me feeling like the enemy
it's time to go now
will you touch me one more time?
it's the miracle i need before
it's time to go

i've got to quiet this beast
got to get it sated
and it's the battle that feeds
it's not complicated

mouth wide open
and good for giving
with teeth showing
and division is the mission i can see

tonight is like wartime
you got me feeling like the enemy
it's time to go now
will you touch me one more time?
it's the miracle i need before
it's time to go

it's time to go now
it's time to go now
it's time to go now
it's time to go now

i've done some very bad things
i have no excuses

this is the perfect game
'cause no one loses

lips honey swollen
to sink your battles
rose hips are rolling
rolling hard toward reality

tonight is like wartime
you got me feeling like the enemy
it's time to go now
will you touch me one more time?
it's the miracle i need before
it's time to go
tonight is like wartime
you got me feeling like the enemy
it's time to go now
will you touch me one more time?
it's the miracle i need before
it's time to go
