Once I was your one & only, oh yeah
Then one day, like the wind, you began to change
You told me to go away, to go away
& now I'm so lonely without you
Oh tell me, where did all the good times go?

No more party lights for you & me
No more walks in the dark to the movie show
Last night, I saw you, I saw you, I saw you kiss another,
yes I did
Oh tell me, where did all the good times go?

(instrumental)

Last night, I saw you, I saw you, I saw you kiss another,
yes I did
Oh tell me, where did all the good times go?

Guess I'll call you for the last time forever
'Cause there's somethin', somethin' I just gotta know
Please excuse me, excuse me, excuse me for this
intrusion, oh darlin'
But tell me, where did all the good times go?

You know, you know, you know I'm gonna make you
over
& you know, you know, you know I won't be happy
without you, baby
But I gotta know
...& fade
