Tell me what you thought about when you were gone
and so alone
The worst is over, you can have the best of me
We got older but we're still young
We never grew out of this feeling that we won't give up

Here we lay again on two separate beds
Riding phone lines to meet a familiar voice
Pictures drawn from memories
We reflect on miscommunications and
misunderstandings

And missing each other too much to have had to let go
We turn our music down and we whisper
Say what you're thinking right now

Tell me what you thought about when you were gone
and so alone
The worst is over, you can have the best of me
We got older but we're still young
We never grew out of this feeling that we won't give up

Jumping to conclusions made me fall away from you
I'm so glad that the truth has brought back together me
and you

We're sitting on the ground and we whisper
Say what you're thinking out loud

Tell me what you thought about when you were gone
and so alone
The worst is over, you can have the best of me
We got older but we're still young
We never grew out of this feeling that we won't give up

We turn our music down and we whisper
We're sitting on the grounds and we whisper
We turn our music down, we're sitting on the grounds
The next time I'm in town, we will kiss girl, we will kiss
girl

Tell me what you thought about when you were gone

and so alone

The worst is over, you can have the best of me

We got older but we're still young

We never grew out of this feeling that we won't

Feeling that we can't, we're not ready to give up

We got older but we're still young

We never grew out of this feeling that we won't give up
