If this is worth my time then I'll be here for a while
If this is worth your while then you're making me smile
If I say, oh, why am I still is all you want
Then I'm not sure how much in common we've got
If you think you've had enough, if you think you've had
enough

Somebody's gonna miss us
When nobody's here for this song
Somebody's gonna miss out
When nobody's in, in the club

'Cause this is no attempt to abandon anyone
It is the influence of the music we love
Well, if you can't relate and refuse to sing along
Then maybe I can interest you in some other song
A little something like, all that you want is another
baby, yeah

Somebody's gonna miss us
When nobody's here for this song
Somebody's gonna miss out
When nobody's in, in the club

Oh, well, oh, my, if it's gonna take time
It's gonna mean that all of my, all of my mistakes
Are gonna be solved, and now we're gonna be great

Somebody's gonna miss us
When nobody's here for this song
Somebody's gonna miss out
When nobody's in, in the club

Somebody's gonna miss us
When nobody's here, here for this song
And I hope they will
Somebody's gonna miss out
When nobody's in, hey
