We could wait for the wind to blow  
Or give me a look so cold  
It gives me chills  
And ends the summer war

My eyes roll  
Around and over and again  
Falling down  
Dizzy with sun stroke

I'll be there  
And I'll try to identify  
Try to look through the gray skies in your eyes  
I'll pick up everything you left behind

Cross your fingers  
And pray for winter  
I'll be there  
Painting the town your favorite color

Guess, I'll call or see you around, yeah  
Guess, I'll call or see you around  
Guess, I'll call or see you around, yeah  
Guess, I'll call or see you around

I'll call or see you around, yeah  
I'll call or see you around  
I'll call or see you around, yeah  
Guess, I'll call or see you around  
Painting the town your favorite color
