So now the end is here I have no fear  
I lean my head on the ground  
I can not feel my legs and my arms are going numb  
But I still see the shapes gathered round

Staring figures, features frozen  
Skins are pale and mouth are open  
Someone's leaning forward saying  
Try to breathe, soon help is coming  
Hold on

Leave me here no need to bother  
Just look at me, I won't recover  
Don't forget to tell her that I love her  
Now let me down, I'm going under

All the bitterness and hate is left behind  
It's a relief, it's a high  
I see my life pass by before my eyes  
And there's no reason to ask why  
High, high, high...  
I leave it all behind  
Hold on

Leave me here no need to bother  
Just look at me, I won't recover  
Don't forget to tell her that I love her  
Now let me down, I'm going under

Hallucination or for real, I start to feel  
Like I am floating in the air, I'm everywhere

Colours shifting patterns intertwining  
Transparent angels singing  
Come with us come with us come with us come with us  
A tunnel rising ascending slowly  
White clouds form a path in limelight  
Come with us come with us come with us

So here I stand at the stairs looking down  
I see myself on the ground  
I look into my eyes, they're telling me

An inner peace has been found

Electric shock, I'm back from yonder  
The pain is too, now even stronger  
Someone's leaning forward saying  
Welcome back son, how're you doing  
Hold on

Leave me here no need to bother  
Just look at me, I won't recover  
Don't forget to tell her that I love her  
Now let me down, I'm going under

Leave me now  
Let me down  
Now
