(Music: Donalds, Cretu - Lyrics: Donalds)

What a friend you think you are  
Seems so close but yet so far  
I see beneath the smile on your face  
I can feel your anger now  
In your heart deep down without a trace  
C'mon Lets Talk about it  
I said it once, I said it twice  
Now you know , you realize, it's in my mind  
Let's Talk About it, Lets Talk about it  
Your trippin once, your trippin twice  
In your own bad mind you'll fall on your face  
Let's Talk About it, Lets Talk about it  
What a friend you think you are  
Seems so close but yet so far  
And now, I think of all the time we spend together  
They say, your friend is your worst enemy  
And now I know it's true  
C'mon Lets Talk About it
