Incoming message  
Simple, loud and clear  
Materialized vengeance  
Arrogance and fear  
What is that you do not understand

No paperwork required  
No stamps or signatures  
No negotiation  
No return adress  
Still you look like you don't understand

This is your great chance to  
An opportunity to  
A brand new start for you to  
A clean late for all your friends too

Bring ye forth the free markets  
In which you'll give us free labour  
Behold the modern, free slavery

Freedom has now struck you  
Join us now or fuck you  
Freedom now demands you  
Freedom wants a thank you

Spoken like a true emperor  
Spoken like a true conqueror  
Spoken like a true terrorist
