Here I am  
In a place that I have never been  
Out of love  
And afraid that you won't let me in  
You came to me  
And I started to feel  
That my senses had left me to die  
Where is my strength  
When I need it the most  
Tell me what you have done  
With my mind  
Chorus:  
Save me now  
From the depth of my infatuation  
I could drown  
In the sea of love and isolation  
I'll take you down if you just  
Save me now  
All the time  
That I gave away I'll give it to you  
And all the love  
That I never made I'll make it to you  
Nothing could be more electric to me  
Than to give you a taste  
Of the love that I hide  
But in my condition I'm totally lost  
Tell me what you have done with my pride  
Chorus
