On the one they'll catch ya  
If you skirt disaster  
On the day they told her  
But she want stay stay

On the one they saw ya  
Witnesses of goya  
Elected to serve ya  
Til your dying day

I hope you don't get what you're after  
I hope you don't get what you're after

To whom it may concern  
I'm writing on behalf of brother  
Twice burned  
Do you be reachin your time  
Just a product of your mind

But when you continue let loose on the running man  
You send him crashing to edge of the pavement  
You're doing something you don't quite understand  
Makin' like he's a lesser man  
So be gone be gone to plea  
You got your vehicle to ride on  
Off to the comissioner as fast as you can  
With your smokin' gun in hand

In your gunship gunship  
Gunship politico  
I hope you don't get what you're after  
In your gunship gunship  
Gunship politico  
I hope you don't get what you're after  
In your gunship gunship  
Gunship gunship  
In your gunship gunship  
Gunship gunship

Six men on their knees  
Eyes shinin' in the highbeams of the search light

Cop's shadows on the wall several stories tall  
Instilling whoa such a fright  
One's kicked in the gut  
He's all cut up by the corner cop  
One stands in defense in a broken sentence  
Asks not to be shot  
If you please  
You men of authority  
We do not speak your language see  
Please act accordingly

He was't beggin  
He was just keepin time with his cup  
You go on and believe that  
You keep your eyes staight up  
I was just lookin  
I had no intention to touch  
But i know when i'm not welcome  
So i thank you very much

See a see a  
See the woman there demonstrate  
See a see a  
See them know but they will not say  
See a see a  
See them set the trial date  
See a see a  
The confidence on the DA's face

Watch out for them politicos  
Watch out for them politicos  
Watch out for them politicos  
Watch out for them politicos

Don't mess mess with the down downpresser way  
They got it down pat they got it down to a tee  
Noone gets thru the lockstep jaw  
You ain't guilty but you did get caught  
So for lack of a better suspect we nominate you  
To ride this one out to see this one thru  
See a see a see a see a  
Arms thrown up in an ever fearful protest  
As the firing squad would ever think to notice  
As if he could summon the likes of moses  
To put the blood back in his friends veins

And if you one step faster  
You can skirt disaster  
But if it's not you it'll be the next guy  
Who's the wrong color at the wrong time

Another day's over and the decision still stands  
His honor in his chambers still washin' his hands  
You know he been fiddlin in his room all day  
Just tryin to wash all his conscience away

Noone's askin for hangman's tree  
They just looking for something true to believe  
See a see a  
See them know but they will not say

He wasn't beggin  
He was just keepin time with him cup  
He wasn't beggin  
He was just keepin time with him cup  
He wasn't beggin  
He was just keepin time with him cup  
You go on and believe that  
And you keep your ash tray up  
I was just lookin  
I had no intention to touch  
But i know when i'm not welcome  
So i thank you very much
