That's deep
This some of that get you through your day music
That's right, I want y'all to ride with me

If, if, if, if, if, if, if, if
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different

If I could turn back the hands of time
I swear I'd go back to spendin' a little more time with
my grandmom
I remember her smile just like it was yesterday
And her tellin' me "Kid stay away from The
Knuckleheads"

But me being a hard head I'd run to the block anyway
Me and D'bo forty-drinkin', weed-smokin', servin'
fiends til' the mornin'
Comin' home young and restless
Grandma downstairs waitin' watchin' the Young and
Restless

Soap opera's smilin' happy to see me
Still in one piece deep down she worried bout me
But I'm too young, dumb and blind to see
They say you don't miss your water until your well run
dry

My grandma died man I cried so hard
I swear if I could turn the hands of time I'd to it all over
again
I'd been there right by her bed in Misdikovia Hospital I
swear, yeah

If I could do it all again, I promise you I would do it
different

If I could do it all again, I promise you I would do it
different

If I could do it all again, I promise you I would do it
different

If I could do it all again, I promise you I would do it
different

Flatline here comes the doctor, I see my momma break
down my God

Now I done seen tears fall from the face of a hustla
But screams from my mom sent pain through my spine
So I got to embrace her

I scream momma were all gonna miss Nana
But you got to get yourself together
Stand strong for her okay, momma I gotcha
Doctor screamin' uh-ha there's nothin' else we can do
for her

Past hours up with family members bringin' balloons
and flowers
Sign this signature we all goin' miss you grandmama
My nieces and nephews they standin' and they
confused
Want to know why everyone's cryin'

I tell em' grandmother's gone away
And she gonna be gone for a long time okay
And where she's gone it's a better place
You know blue skies white clouds now go and play with
Kensache okay

If I could do it all again, I promise to you I would do it
different

If I could do it all again, I promise to you I would do it
different

If I could do it all again, I promise to you I would do it
different

If I could do it all again, I promise to you I would do it
different

If I could do it again, I would do it different
Less time spent in prison, more time in religion
Less time talkin' more time listenin'
Learnin', observin' went to school fucked around and
been a surgeon

But the hands of time do not go back
And all my niggaz in the dirt in the box they will not
come back

Rest in peace Mark, Troy, Ant, Schiz, Mann, Wayne, Rob

All the young niggaz who died before they time

From a place where you deal with the blues
Been shot more than Pac but I ain't make the news
Walk with me, if I could do it again
I can't so I deal with the past like Texas inmates deal
with the gas

If I die it's no surprise if it's not from old age
But from a young angry nigga with an old gauge
The ghetto motherfucker times is mean
We'd love to have Michael J. Fox Time Machine

If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different

If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
If I could do it all again, I promise to you I would do it
different
