There's a hue in white and blue
fell from half mast
now
half covering a red shoe

Half assed if they will rise
what would we do

Mister news man send your wire
let Washington conspire

You know the company men wait for you
in their lair

But a moment is callin
callin' us all
as your one time supporters
hang from media walls
and outside the gate
fate is closing in
you can turn us down
but you can't deny the den

from the farm lands to the townships
the masses are classes

walk rise rise with every hour that passes
they trampled the voice of the paths that's ceasing us

go ahead and load the magazines
cause them bullets are treasonous

(quiet)

your leader is going to speak now
everyone turn off your mind

(quiet)

your listenin to a raid on the stadiar
a democracy in kind

but a moment is callin
callin us all

as your one time supporters
hang from media walls
and outside the gate
fate is closin in
you can turn us down
but you can't deny the den

from the farm lands to the townships
the masses are classes
walk rise rise with every hour that passes
you trampled voice of the past thats ceasing us

go ahead and load the magazine
cus them bullets are treasonous

(quiet)

your leader is goin to speak now
everyone turn off your mind

(quiet)

you're listenin to a raid on the stadiar
a democracy in kind (3x)

a democracy in
hey for ya
hey for ya
hey for ya

hey it's another
hey for ya
hey for ya
hey for ya

(quiet)

your leader is going to speak now
everyone turn off your mind

(quiet)

your listenin to a raid on the stadiar
a democracy in kind
