Don't forget the war  
Don't forget the war  
Don't forget the war  
The war, for it is coming  
And it's right in front of you

Don't you leave us now  
Don't you leave us now  
Now, don't you leave us now  
For we are all but coming  
And we're right in front of you

Take cover  
Take cover  
Take cover  
And I'll take cover too

And I'll try to stay the same  
And I tried to stay the same  
The same, but you hardly  
Recognize my face  
For the war is coming  
And it's standing in front of you

So take cover  
Take cover  
Take cover  
And I'll take cover too

Take cover  
Take cover  
Take cover  
And I'll take cover too

They're watching you  
They're watching you  
They're watching you  
Behave  
[x4]

So take cover

Take cover  
Take cover  
And I'll take cover

Take cover  
Take cover  
Take cover  
And I'll take cover too

Take cover  
Take cover  
Take cover  
And I'll take cover

Take cover  
Take cover  
Take cover  
And I'll take cover
