Look at you now the bridge is burning, whoa oh,
Look at you now the bridge is burning
Look at you now the bridge is burning to the ground
You're just content to watch it all burn

I'll be the first to say he had it coming, whoa oh,
I'll be the first to say he had it coming
I'll be the first to throw blame on the name
On the man who was keeping her on

Yeah he better walk away find his own place to stay
'Cause that boy may not be a man yet
But he's gonna blow that man away

Look at you now the bridge is burning, whoa oh,
Look at you now the bridge is burning
Look at you now the bridge is burning to the ground
You're just content to watch it all burn

So go on let the jury decide
Go on let the jury decide
Go on let the jury decide what's right
And who done afraid of wrong

Yeah you better walk away find his own place to stay
Cause that boy may not be a man yet
But he gonna blow that man away

Yeah you gotta walk away find his own place to stay
Cause that boy may not be a man yet
But he gonna blow that man away

You better walk away find his own place to stay
Cause that boy may not be a man yet
But he gonna blow that man away

You better walk away find his own place to stay
Cause that boy may not be a man yet
But he gonna blow that man away
