Thy seraphicity mesmerised me
Thee haunt me all the time
Be it nocturnal,
Be it diurnal,
Be it dusk, Be it dawn
Thy hallucinations come to me.

Stasis in a stupor
I only think about thee
I'm besotted for thee
Are Thou rely in me?

When I gaze at thee
Thou stare at me,
When I smile for thee
Thou grin for me
I stravage around thee
Cause I endeavour to see
Thy blussy face
When thou see, around, me.

Thus I perceive to get
What I hankered
And to my upshot
I forged to propose.
