enter the unknown
it's not overblown
when will i move back home?
the years have been thrown

it's not alright
it's much too bright
turn around
don't follow the sound

end it right now
wasted life i allow
when will i move back home
the years have been thrown

it's not alright
it's much too bright
turn around
don't follow the sound
stay away
from the bright sun ray
please believe
yourself today

don't die on me
don't die on me

end it right now
wasted life i allow
when will i move back home
