It's not over  
Over is the day you give up

Not unlike three leaf clover  
Unlucky until you give it thought.  
I will never be sober  
I'll leave before you can help

It's not over  
Over is the day you give up

Every day is another day my parents get older.  
Every day is another day I will not see my friends.  
Every day is another day wasted breathing smog.

It's not over  
Over is the day you give up

A long time to wait  
To not get any closer
