Sylvia:

Our flame has gone out long ago  
We've lost our strength long since  
And cold dialogues don't while away the time anymore  
I can't even feel you, I don't desire your lips suddenly  
Let's not sweet talk ourselves, there's nothing left

Ref.

Jeszcze kiedyś będziemy jak ona i on,  
uda nam się naprawić każdy błąd, każdy błąd...  
Jeszcze kiedyś znajdziemy to czego wciąż nam brak,  
może uwierze w cuda tego dnia, tego dnia...

Liber:

One more time I helplessly hide my face in my hands  
Because so many bad things destroy us; time flows faster and faster  
In this movie of ours there's a million of dramatic scenes  
Happy ending is moving away from us; may it be only a dream  
The sun shines rarely and we've had enough of storms  
Is it still us? Look, I don't see any love here for long  
It is based only on grievances  
Sweetheart, it's a disaster, an open male-female war
