Shine on me  
Won't you shine on me harvest moon?  
I've got my bags all packed  
My ghosts are tied up in my sack  
And I'm leaving here by the light of you

I was born to lose  
Nothing has really ever changed  
Now winter's moving in and my pockets are wearing  
thin  
And lately my true love's been acting kind of strange

Chorus:  
I've never had a job worth keeping  
No I never had a dime to spare  
You know that old trouble's been creeping up on my  
back  
Stair  
I always feel lonely  
Even in the best of company  
And if these old blues keep on haunting me  
I guess I'll keep moving on

So shine your light  
As I walk on down the line  
I know there ain't much you can do  
Just look on me as I pass through

And help me keep track of the time

I should have known this was coming  
I could see the leaves start to turn brown  
Every time the seasons change  
I get an itching in my brain  
And I pick up all the plans that I'd laid down

Chorus:

You look like you're smiling about something  
If you've got a secret won't you let me in?  
I've been walking along with a troubled mind

Feeling a little far behind  
But I don't blame you for that old rain and wind

Won't you lift me up  
Give me a drink from your loving cup  
And when my feet touch the ground  
I'll listen for that highway sound  
No I don't think I'll ever get enough

Chorus:
