

A Static Lullaby "Rattlesnake!"

Visit "[Rattlesnake!](#)" on MotoLyrics.com

God damn, holy diver
You made it right back to my bed
Manifested lips that whisper kiss
That whisper kiss

Hey, Hey, Hey [x8]

Pull the shades
I'm gutted
Guilty, plagued
And lonely

I admit you wont see me again
My end is desperately engaged
Dark, departed, hollow
You see I'm just a shadow
This ravenous beast is chasing shame
A shadow he remains

How will my voice carry tonight?
How do I look under these lights?
Shove my head into the grand ivory keys
Maybe this will teach me how to sing

Fuck hope, I'm a terror
Heavyweight human disaster
I think I found love
But what's love?
Why can't we be loved?

Burn, burn, burn is down

Icarus just hit the ground
To the youth that thought they could fly
I bottled up just drank up and died

How will my voice carry tonight?
How do I look under these lights?
Shove my head into the grand ivory keys
Maybe this will teach me how to sing

Palest white

I'm blues and reds
This patriot is long past dead
[x2]

Forever ending
Remain but still gone
Oh god I fear the steel
Oh how I fear the steel
[x2]

Burn. Burn. Burn.

How will my voice carry tonight?
How do I look under these lights?
Shove my face into the grand ivory keys
Maybe this will teach me how to sing

My end is desperately engaged.
