If you wanna mess around, just stay away from my
door

I've got a leak in my bucket and a great big hole in my
floor

But if you wanna stay around and love me

You know it's all right with me

I've got no money, can't afford no big black car

My bank account won't see me very far

But if you wanna stay around and love me

You know it's all right with me

I'm sick and tired of bein' on my own

But you know, I'll take nobody

Who's gonna leave me tired and alone

So you see, I can only offer a man that's poor

With frost and that and trouble at my door

But if you wanna stay around and love me

You know it's all right with me

Ooo, ooo, ooo, ooo

Ooo, ooo, ooo, ooo
