Lost my faith, have to hide  
A sea of tears I've cried  
I thought I could never live without you  
But this turned out to be untrue  
I've made a better choice  
I can hear your cold voice fading  
And I am fading

Living like a new man  
New face and new name  
Surviving as best I can  
Ripping pictures forgetting your lectures  
Living like a new man  
With no fear and no shame  
No need for me to explain  
Ripping pictures forgetting your lectures

I'm listening to all our favourite songs

I know that this is wrong  
It reminds me of what we've been  
Through  
Why did it all slip away  
Like sand through my hands  
What happened to our plans?  
They are fading  
And I am fading

Living like a new man  
New face and new name  
Surviving as best I can  
Ripping pictures forgetting your lectures  
Living like a new man  
With no fear and no shame  
No need for me to explain  
Ripping pictures forgetting your lectures
