If you feel in your heart that love's about to start  
Don't be dismayed or afraid to tell him so  
If you feel there's a chance for a lifetime of romance  
Don't let it go, let him know, let it show

If he seems a little shy, it could be he's a guy  
Who takes his time and it's no crime to take it slow  
If he fits in your schemes, makes love in your dreams  
Don't let it go, let him know, let it show

If you long for his touch, think about him too much  
Let a seed in his mind and let it grow  
If you feel there's a chance for a lifetime romance  
Don't let it go, let him know, let it show

Well, now if he seems a little shy, it could be that he's a  
guy  
Who takes his time and it's no crime to take it slow  
And if he fits in your schemes or honey he makes love  
in your dreams  
Don't let it go, you let him know and let it show

If you long for his touch, think about him too much  
Let a seed in his mind and let it grow  
If you feel there's a chance for a lifetime of romance  
Don't let it go let him, know let it show

Let it show
