It's a small, small world
Fancy meetin' you
I don't believe I've seen you since
The day we both left school

Well, man, I can't believe it
I've been wonderin' where you were
This truly is amazin'
It's a small, small world

So what have you been doin'?
Not much, what's up with you?
I've been livin' out in Denver
And I live out there too

Well, what brings you to Dallas
I finally met a girl
That really is amazin'
It's a small, small world

It's a small, small world
It's a small, small world
You can say that again
It's a small, small world

So you're finally gettin' married
And I want you to be there
I hope that you can come to mine
Just tell me when and where

Well, that's up to Rita's mother
Rita? Yeah, man, that's insane
I know you won't believe this
But Rita's my girls name

So what does your Rita do?
She travels, she's on another flight
My Rita travels too
But she's comin' home tonight

We ought to get together
And introduce the girls

They'd probably know each other
It's a small, small world

It's a small, small world
It's a small, small world
You can say that again
It's a small, small world

Yeah, I can't wait to see her
With those big old eyes so blue
The blondest hair you've ever seen
And that butterfly tattoo

Now wait a minute buddy
Did you say butterfly tattoo? Yeah
Well I'll be a monkey's uncle
My Rita's got one too

It's a small, small world
It's a small, small world
You can say that again
It's a small, small world

It's a small, small world
It's a small, small world
You can say that again
It's a small, small world
