SPECIAL SONG FOR WANDA

WRITERS HAROLD AND DON REID

Wanda was alone at night while he was somewhere
servin' A Navy wife with too much spare time on her
hands His letters were a comfort and I think she really
loved him But paper words don't fill the space when
someone needs a man. And I'd just like to sing a
special song for Wanda Cause Wanda was a special
friend of mine And somewhere makin' up his bed in
Newport News Virginia I hope Wanda hears my song
and plays it one more time. Wanda gave me everything
a body ever needed But a body's needs will sometimes
lead a soul to sin She was only lonesome a wife on
leave of duty She went down in history and probably
will again. And I'd just like to sing a special song for
Wanda Cause Wanda was a special friend of mine And
somewhere makin' up his bed in Newport News Virginia
I hope Wanda hears my song and plays it one more
time. I hope Wanda hears my song and plays it one
more time...
