Riding along on the words of a song in my head  
Thinking all day of the thoughts in my mind never said  
I have needed a friend, over and over again  
Everybody sings of a God they have known  
Now I have a God of my own

And it's better now, been a long, long time  
And it's better now that the words can rhyme

Gotta have something to sing about, everyone must  
have a song  
Now I got something to sing about, everyone's singing  
my song  
Gotta have something to sing about, everyone must  
have a song  
Now I got something to sing about, everyone's singing  
my song

Dreaming away, never wishing to be anyone  
Never a Question or reason to find right or wrong  
When I looked at the end, over and over again  
Riding along on the words of a song  
Thinking my time had all gone

And it's better now, been a long, long time  
And it's better now that the words can rhyme

Gotta have something to sing about, everyone must  
have a song  
Now I got something to sing about, everyone's singing  
my song  
Gotta have something to sing about, everyone must  
have a song  
Now I got something to sing about, everyone's singing  
my song
