"Back On My Feet"

Visit "[Back On My Feet](#)" on MotoLyrics.com

I'm back on my feet again I'm flying high
Watching my back again or I could die

When we're up there flying
And it all seems fine
Half the time we're trying
Trying hard what a fool
Saying anything to raze it all
But I'm back on my feet again I'm flying high
Watching my back again or I could die

It is down to timing
Get it right first time
'Cos it's so exiting
Keeping on with the flow
Giving everybody such a show
But I'm back on my feet again I'm flying high
Watching my back again or I could die
Out on the street again I'm riding high
Worried 'bout anything that passes by
It's not a nightmare or a dream
It's not the first time that it's been

I'm back on my feet again I'm flying high
Watching my back again or I could die

So it's time to work out
What is going on
So you'd best not freak out
Lose your mind lose your cool
It's the quickest way to end it all
But I'm back on my feet again I'm flying high
Watching my back again or I could die
Out on the street again I'm riding high
Worried 'bout anything that passes by
Back on my feet again I'm flying high
Watching my back again or I could die
