You made me love you
Now I can't say goodbye
You're way above me
But I'll never know why

And when I turn left
And then you turn right
And you say you're right
And you're wrong
I know you're wrong

I saw the light in you
It wasn't much that I could do
I saw the light in you
I saw the light

You made me like you
And now like you I am
I'm trying to stay me
But I don't know if I can

When I say it's black
And you say it's white
And I say it's black
And you're wrong
I know you're wrong

I saw the light in you
It wasn't much that I could do
I saw the light in you
I saw the light

Standing on a platform
Watching all the trains go past
Keep on trying to catch one
But you know they're much too fast

I never seem to make it
But I know the reason why
I need to, need to, need to
Need to get away

You made me love you
And now I can't say good-bye
You'll wait above me
But I'll never know why

When I say it's black
And you say it's white
And I say it's black
And you're wrong
I know you're wrong

I saw the light in you
It wasn't much that I could do
I saw the light in you
I saw the light

I saw the light in you
It wasn't much that I could do
I saw the light in you
I saw the light

I saw the light in you
It wasn't much that I could do
I saw the light in you
