Her name is Laticia
Best lookin' girl in town
Well she's a fine, fine, fine girl
Yes she's a fine, fine, fine girl

Laticia works only by night
Doin' things far from right
Every time I see her I turn away
I can't understand her bein' this way

Laticia's a girl who most men adore
And some she knows what they're lookin' for
If they play nice, she gives all what they want
Surely she must know this can't go on

One day she'll realize
There's ways to lead a better life
When years have flown and passed her by
There'll be tears streamin' from her eyes
Too late, too long to wait

This girl called Laticia
Laticia, Laticia, Laticia
She's a fine, fine, fine girl
Yes she's a fine, fine, fine girl

Laticia works only by night
Only back roads, only dim lights
All her looks of beauty, they don't mean a thing
A lovely girl who wasted in sin
Laticia
