"Living On A Island"

Visit "[Living On A Island](#)" on MotoLyrics.com

Easy when you're number one, everybody say you're
having fun
Smiling for the public eye, when you're body say you
wanna die
Living on an island, looking at another line
Waiting for my friend to come and we'll get high

Hugh he got a real nice place, Cruxie gonna be there
soon
And I just wanna see his face, I'm getting lonely in my
empty room
Living on an island, working on another line
Waiting for my friend to come and we'll get high

Passing time away in blue skies
Thinking of the smile in her eyes
Easy, it's easy

Living on an island, oh boy we're having fun
Living on an island, thinking about the things I've done
Living on an island, searching for another light
Waiting for my friend to come and we'll get high
Waiting for my friend to come and we'll get high
I said we're gonna get high
Yeah we're gonna get high
Gonna touch the sky
