Looking out for a girl named Caroline  
The kind of girl everybody like to meet  
Standing there like she couldn't care  
Hoping her heart never missed a beat  
She got her look and you know that it's always there

I wouldn't have it any other way  
Fact is you can take her anywhere  
There is no reason but I gotta say

She's your very best friend  
When you're digging in a hole  
She'd read a good book  
But she loves her rock and roll  
You say what you want  
But she's gonna take control  
Caroline, you know, got a lot of soul

Gotta run, gotta hide, get outside of town  
Somewhere we go she isn't far behind  
Seems like another day in paradise  
Another day for me to lose my mind  
Now she'd be there, anywhere, didn't have a chance  
And I believe everybody knows  
She is the girl that you can't ignore  
And isn't that the way it always goes?

She's your very best friend  
When you're digging in a hole  
She'd read a good book  
But she loves her rock and roll  
You say what you want  
But she's gonna take control  
Caroline, you know, got a lot of soul  
So I'm never going back, gotta keep on moving on  
Catch you doing this, when it's over dead and gone  
No more looking cool down the barrel of a gun  
Come on Caroline, still we gotta run  
Come on Caroline

Got her look and you know that it's always there

I wouldn't have it any other way  
Fact is you can take her anywhere  
There is no reason but I gotta say

She's your very best friend  
When you're digging in a hole  
She'd read a good book  
But she loves her rock and roll  
You say what you want  
But she's gonna take control  
Caroline, you know, got a lot of soul  
So I'm never going back, gotta keep on moving on  
Catch you doing this, when it's over dead and gone  
No more looking cool down the barrel of a gun  
Come on Caroline, still we gotta run  
Come on Caroline

She's your very best friend  
When you're digging in a hole  
She'd read a good book  
But she loves her rock and roll  
You say what you want  
But she's gonna take control  
Caroline, you know, got a lot of soul
