"Oh What A Night"

Walking the tightrope
And losing the pole
I hung on by my teeth
One of those nights
That didn't feel too right
Gonna try myself to sleep

Oh what a night
Oh what a flight it was
Oh, oh what a night

No telephone news
And I'm missing you
I can't afford to phone
There's a thousand people
Using my room
But I've never felt so alone

I picture you face
I keep hearing your voice
I'm dying in the sheets I daren't think too much
So I drink so much
I still can't get to sleep
