I really didn't wanna break it, you know I'm sorry it's
over and done
I really thought we would have made it, but now it's
gone
Can you look into my eyes and tell me, that there's
nothing wrong?
I know you know it's not the same, it's not the same old
song

It's over and over and over
I told you, it's over and done

None of us are getting younger, but we all want to be a
millionaire
And when you stop to think about it, it seems unfair
But if you never stop to think at all, you'd never be
aware
And never understand the meaning of the love we
shared

It's over and over I told you, it's over, it's only fair
Oh, it's over and over, I told you, it's over and done

It's no good trying to make it better, you know it doesn't
feel the right to do
Everything we shared together would break in two
Can you see what I've been trying to say, I wouldn't do
you wrong?
We've got to get it over now and learn to carry on

It's over and over and over, I told you, it's over and
done
It's over and over and over, I told you, it's over and
done
Oh, it's over and over, I told you, it's over and done
