Baby, this feeling that you give to me  
Maybe I'm dreaming you're so good to me  
Is it really, really me?  
Is it really, really me?

Baby, this feeling, I can't stand the joy  
Spare me some feeling if I wake up a boy  
Is it really, really me?  
Is it really, really me?

Baby, this feeling, I'm a fire I am  
Am I still teething or could I be a man?  
Is it  
Is it

Is it really, really me?  
Is it really, really me?

Gotta get on over there's a long, long ride now  
I been away too long I gotta get on home now  
I'm getting far too old to earn my dream of fortune  
Time has flown and now I know what I must do

I gotta go, I gotta go, I gotta go to ease my mind  
I gotta go, I gotta go, I gotta go to ease my mind

Gotta get on over there's a long, long ride now  
I been away too long I gotta get on home now  
I'm getting far too old to earn my dream of fortune  
Time has flown and now I know what I must do

I gotta go, I gotta go, I gotta go to ease my mind  
I gotta go, I gotta go, I gotta go to ease my mind
