

## Status Quo "Speechless"

Visit "[Speechless](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Every time I watch, you gotta switch you off  
You surely can't be serious  
Every time I see you, I just can't believe you  
Totally ridiculous

All those days I spent staring at your wilderness  
All those ways you got to me, threw me  
You, you leave me speechless

You, you make me scared of you  
You make me scared of losing concentration  
Whoo! Make me afraid of you, make me afraid of  
Losing conver, conver, conver, conver, conversation

All my friends say that you're completely fruitless  
Hide away with you, I'm guilty, I'm guilty  
You've found my only weakness

You, you leave me spechless  
You, you leave me speechless  
You, you leave me speechless  
I said, "You, you leave me speechless"  
You, you leave me speechless  
You, you leave me speechless

I said you, you leave me speechless  
You, you leave me speechless  
You, you leave me speechless  
I said, "You, you leave me speechless"  
You, you leave me speechless  
Speechless, speechless, speechless, speechless

Entertainment

You leave me speechless, still leave me speechless  
You leave me speechless, you leave me speechless  
You leave me speechless, still leave me speechless

You leave me speechless, you leave me speechless  
You leave me speechless, still leave me speechless  
You leave me speechless, you leave me speechless

Your remote control is sending out patrols  
I've got consumer sadness  
Spray me, camouflage me, blind me so I can't see  
Help me through this madness

All those years I spent clinging to your warm breast  
All those words mean less  
I don't think, I just gotta get it off my chest, you pest

You, you leave me speechless  
You, you leave me speechless  
You, you leave me speechless  
I said, "You, you leave me speechless"  
You, you leave me speechless  
You, you leave me speechless

I said, "You, you leave me speechless"  
You, you leave me speechless  
You, you leave me speechless  
I said, "You, you leave me speechless"  
You, you leave me speechless  
Speechless, speechless, speechless, speechless

You leave me speechless  
I said, "You leave me, you leave me"  
You leave me speechless  
I said, "You leave me, you leave me"  
You leave me speechless  
I said you leave me, you leave me  
You leave me speechless
