(Music: Donalds, Cretu, Gad - Lyrics: Donalds, Cretu)

Turn around, I see no familiar face
I know, in my life I've seen every culture, every race
Many a day, I got a lot to say for all that I trust
I think think were should I adjust

Where shall I go, I know my place is here
What shall I do, I feel my place is here

Travelled many oceans, travelled the land too see
So many emotions, you would not believe
But can everybody go home
In my mind, in my heart, in my soul

Where shall I go, I know my place is here
What shall I do, I feel my place is here

Living out my fantasies, living for my dreams
For all the money in this world, I felt the need
I'm missing the smell of home
Understand when it's all said an done
My place is here,

Gimmee my yard, gimmee my home
Gimmee my yard, gimmee my home

Where shall I go, I know my place is here
What shall I do, I feel my place is here
I beleive in love, I beleive in home, I beleive in God

Where shall I go, I know my place is here
What shall I do, I feel my place is here
Gimmee my yard, gimmee my home
Gimmee my yard, gimmee my home
