Lets start by taking an interest in all our thoughts
pertaining to this while I'm waiting by the telephone I
can hardly stand to be alone. Tonight well offer the
love that we have for you. Take us sounding like we
always do. I'll be running to see you only we know who
we are and honestly... Keep up the rhyme I know were
sounding like all of our lines that get the feeling right.
Take my hands and let me down and I'll be waiting.
Take us sounding like we always do. I'll be running to
see you only we know who we are and honestly I can't
breath without you here with me. I'm forever yours. Say
you need it. Tonight well offer the love that we have for
you. Take us sounding like we always do. I'll be running
to see you only we know who we are and honestly I just
can't imagine my life without you here with me
