"Grace"

When I was a mountain, strong with stone, silver and
gold
Strip-mined wildly, spent it all
Leaving only stone

(Chorus)

But Grace, are You hangin' on for me?
Tell me it's true, You still do
Come back around this way

When I was Your lover - passionate and bright as the
stars
Left You for the least of whores
Broke Your precious heart

(Chorus)

"Oh, I've been standing right here, all along.

My dear, I've been standing right here
Ever as before
Oh, I want nothing more than you
Stay please, come back to My arms and
Rest your weary head,
Don't ever leave again,
Beloved."

(Chorus)

Grace
Grace -

"Oh, I've been standing right here all along."
