I am a hungry wolf and run endlessly with my mate  
so to god be all the foolish, i run unto the strong  
at daybreak i roam awake to who follows me  
i roam i roam i roam

I am a hungry wolf and run endlessly with my mate  
welcome to tripping doors, the answer of your death  
at daybreak i ram ready to tear up the world  
i roam i roam i roam

The hungry wolf smells from the hill  
as villagers surround the fire  
she loves her mate as he loves her  
and they live together for life

I am a hungry wolf and run endlessly with my mate  
look across the street my friend, we're waiting for you  
to slow down  
at daybreak i roam, eyes in the back of my head  
i roam i roam i roam

The hungry wolf smells from the hill  
as villagers surround the fire  
she loves her mate as he loves her  
and they live together for life

I am the hungry wolf and run endlessly with my mate  
so to god be all the foolish, i run unto the strong  
at daybreak i roam, ready to tear up the world  
i roam i roam i roam
