They used to say we were born to lose
That wed never make it
Our whole lives through that
Wed be stuck in this dead town

With the whold world against us
We set out on our own to find our way of life
And our way around
They try to say wed be nothing
They only said it just to keep us down

They were never gonna get me down
They were never gonna keep us down
You cant take this time away

Cuz I am every thing I said Id ever be
So fuck you and fuck your town
Cuz I got dreams
Im gonna counquer the world
Just you wait and see
Im proving you wrong every single day

I remember as if it were yesturday
The good ol days back in 1993
Though thick and thin you are my blood brother
We all got drunk and sang out songs
Its what we did for fun

They tried to say wed be nothin
They only said it just to keep us down

But you cant hold me down
They keep runnin their mouths
Sayin somethin that I dont need to hear

Cuz I am every thing I said Id ever be
So fuck you and fuck your town
Cuz I got dreams
Im gonna counquer the world
Just you wait and see
Im proving you wrong every single day

No were older and well never be the same
We dont live by the rules
And that will never change

Cuz I am every thing I said Id ever be
So fuck you and fuck your town
Cuz I got dreams
Im gonna counquer the world
Just you wait and see
Im proving you wrong every single day
Im gonna conquer the world
Im gonna conquer the world
Im gonna conquer the world
